 Seri Kembangan, Selangor

EDUCATION

B.A. in Mechatronics Engineering

Asia Pacific University

2022 - present

Current CGPA: 3.48

Secondary Higher Education

Ahmadhiyya International School

2019 - 2021

TECHNICAL SKILLS

- SOLIDWORKS
- C Programming
- Python
- LabVIEW
- MATLAB

SOFT SKILLS

- Time Management
- Problem solving
- Decision Making
- Teamwork
- Leadership

ABOUT ME

I'm a third-year Mechatronic Engineering student passionate about technology and innovation. I'm eager to expand my knowledge across various fields and seek opportunities to enhance my skills. I enjoy exploring new ideas and applying theoretical concepts to practical areas like automation, robotics, and system integration

EXPERIENCE

Engineering Technical Assistant

Asia Pacific University

Mar 2024 - Present

- Maintaining Lab Equipment, such as multimeters and electric components.
- Supervising students while they work in lab and ensuring students follow the rules and regulations.
- Assisting students in regards to equipment usage or providing components for experiments.

IT Intern

Rainbow Construction Pvt Ltd

2019 - 1 month

- Setting up Computers for office use.
- Taking inventory of office equipment, such as computer and printers, and their respective specs.
- Maintaining Office Equipment, such as replacing printer ink cartridges.

PROJECTS

- **Sorting and Stamping system:** Built a pneumatic system to reject objects larger than a certain size and stamping the accepted ones, by integrating sensors, relays and conveyor, to automate the process
- **Pick and Place system:** Designed and implemented a PLC-based pick-and-place system with sensors, relays, conveyor, vacuum gripper, mechanical switches, and integrated pause/play features for enhanced control.
- **C-programming:** "Developed a system for managing staff leave applications with three user roles: Admins, who manage staff records and leave balances; Superiors, who approve or reject leave requests; and Staff, who can apply for, cancel, and check the status of their leave. The system includes secure login for all users."
